

MUHC Pediatric Pain Program Information

on a computer at the MUHC

“douleur” in the “Chercher/ Search for:” box and press “Enter”.

MUHC drug formulary: May be found on the MUHC intranet. Look for the

MUHC shield icon (MUHC Portal) on

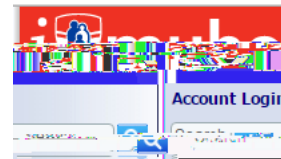

the desktop of any networked computer at the MUHC.

Click on “Drug Formularies” in the “Pharmacy and Therapeutics Committee” section (on the left). This will take you to the Lexico site. Look for the “MUHC Pediatric Drug Formulary” section on the left.

Safe Opioid Prescribing Guidelines:

Search for “opioid” on the MUHC intranet and click the link for “pediatric_medication_ opioid _therapy_guidelines.pdf ”

or follow the link below

http://www.emuhc.muhc.mcgill.ca/sites/default/files/pediatric_medication_ opioid_therapy_guidelines.pdf

The screenshot shows a table of drug formulary information. The table has columns for drug name, route, and strength. A pink callout box with a white border and a MUHC logo in the top left corner contains the text: "Please note that Codeine has been removed from the MUHC Pediatric drug formulary".

Drug Name	Route	Strength
Codeine	PO	10mg
Codeine	IV/SC	30mg
Codeine	PO	2.5mg
Codeine	IV/SC	5mg
Codeine	PO	70mg
Codeine	IV/SC	60mg
Codeine	PO	3.5mg
Codeine	IV/SC	3.5mg
Codeine	PO	10mg
Codeine	IV/SC	30mg
