What advice do you have for incoming MDCM-PhD students?

_____ Keep everything in perspective. The program is demanding and, at times, overwhelming. In these moments, I have found it helpful to take a step back: remind myself why I decided to do what I am doing and consider the importance of this moment in my trajectory--it is usually less than I first think.

What do you like to do in your spare time?

_____ I love cooking for friends, taking long walks and reading!
